STEP ONE

# Every great smile starts with being *dental fit*

Whitening, bonding, aligners and veneers look their best, and last longest, on a healthy mouth. Cosmetic work on top of decay or gum disease simply won't last.

So we always start by making you **dental fit**. Then comes the wow.

1

### Check-up and X-rays

A full examination so nothing is missed. Examination £50.

2

### Hygiene clean

Lifts staining and tartar, and teeth often look brighter straight away. From £75.

3

### Treat any problems

Decay, worn fillings or gum issues come first, so your new smile is built on solid ground.

*Healthy teeth first... then the wow.*

REAL PATIENTS · REAL RESULTS

# Thousands of smile stories

A few of our own patients. Every smile is different, and results vary from person to person.

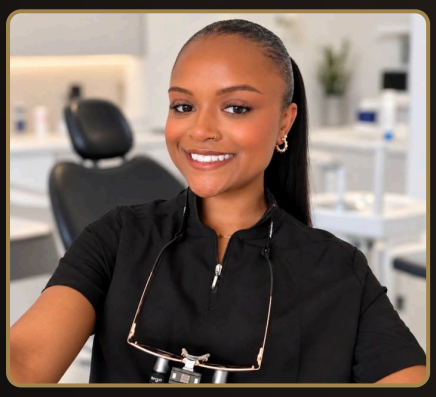
YOUR OPTIONS

# Small changes, big difference

## Teeth whitening

**Good for:** healthy teeth that are stained or yellowed.
**How:** custom trays you wear at home with professional gel, usually over 2 to 3 weeks. Laser whitening also available.
**Worth knowing:** whitening doesn't change the colour of fillings, crowns or veneers.

Home whitening from £395 · from £8 a month



## Composite bonding

**Good for:** small chips, gaps, uneven edges or worn teeth.
**How:** tooth-coloured material is shaped onto your teeth, often in one visit, usually with little or no drilling.
**Worth knowing:** bonding needs a polish from time to time to keep its shine.

From £295 per tooth · edge bonding from £195

## Clear aligners

**Good for:** crooked, crowded or gappy teeth.
**How:** nearly invisible trays gently move your teeth, often over 4 to 12 months. Packages include scan, X-rays, hygiene clean, whitening and retainers.
**Worth knowing:** you'll wear retainers afterwards to keep teeth straight.

Spark from £1,995 · Invisalign from £2,995 · from £42 a month

YOUR OPTIONS

# The complete smile makeover

## Veneers and smile makeovers

**Good for:** changing the shape, size and colour of several teeth at once.
**How:** thin layers of composite or porcelain are fitted to the front of your teeth. A smile makeover combines treatments into one plan.
**Worth knowing:** porcelain is the most durable; composite is quicker and more affordable.

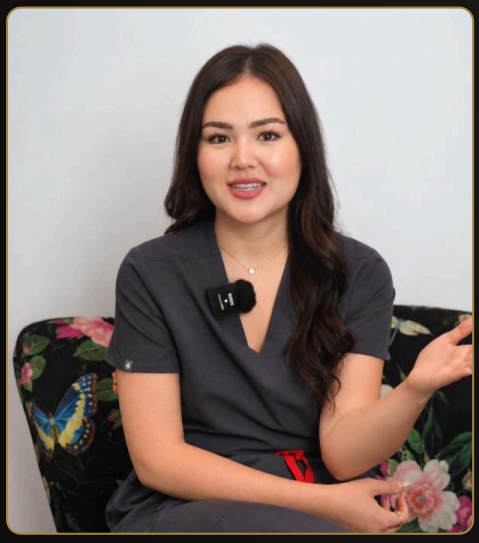
Composite from £349 · porcelain from £900 per tooth

Smile makeover from £1,499 · from £32 a month

## Dental implants

**Good for:** replacing one or more missing teeth.
**How:** a titanium post replaces the root, then a crown goes on top. It looks, feels and works like a natural tooth.
**Worth knowing:** implants need healthy gums and enough bone; we check this at your consultation.

Single implant with crown from £2,750 · from £58 a month



## Not sure which is right for you?

That's what the free consultation is for. Most people need a combination, and the best plan depends on your teeth, your goals and your budget.

NEXT STEPS

# Highly qualified dentists, *here to help you*

Our dentists and treatment coordinators listen first, explain your options honestly, and give you your plan and costs in writing. No pressure to decide on the day.

### Free consultation

Talk through your options with a treatment coordinator.

### 0% finance

Spread the cost with monthly payments, subject to status.

### 4.9 star reviews

Rated by hundreds of patients across our clinics.
